Endurance by Jay Lake This is one of those butt kicking female protagonist stories I enjoy so much. Green is a god ridden sell sword seemingly bent on self destruction. This book stood alone quite well. I do want to read Green now though, the precursor to this book. This was an excellent action adventure fantasy with a terrific understory.

We loved Green and kept watching for the next book to come out. Green was just the build up for this adventure which left a wide opening for the next book. It might seem odd but I think we will like book 3 better than book 2. There is a little too much going on all the time and too much set up without conclusion.
