The unique ability to solve the complexities of multimode, multiband, multi-technology through our leading modems and RF front-end solutions has enabled vendors and operators to bring their LTE products and services to market quickly and cost-effectively.

4G LTE | Carrier Aggregation | Qualcomm

Birch Bark Canoe Project: In the late summer of 2010, three friends and I realized a plan that was 3 years in the making: to paddle part of the old fur trade route in Northern Saskatchewan, and to do so in traditional birch bark canoes. Of course, you need a canoe to do so. To learn more about the trip and the construction of the canoe, click on the picture above.

Top eLearning Content Development Companies For 2018 ...

The first commercially available device that could be properly referred to as a "smartphone" began as a prototype called "Angler" developed by Frank Canova in 1992 while at IBM and demonstrated in November of that year at the COMDEX computer industry trade show. A refined version was marketed to consumers in 1994 by BellSouth under the name Simon Personal Communicator.

Smartphone - Wikipedia

When the staff at the Walters Art Museum decided to invite visitors to create profiles for their Heroes exhibition, they did not want to deal with the logistical complexity or cost of a long profile-making activity. They wanted profile making to be fun, easy, optional, and high-value.
