Chef's salad Food historians can't quite agree on the history and composition of chef's salad much less who assembled the first one. Some trace this salad's roots to Salmagundi, a popular meat and salad dish originating in 17th century England and popular in colonial America. Others contend chef's salad is a product of early twentieth century, originating in either New York or California.

Near-future space science fiction almost by definition has the same shared background of a large human presence in space. Practically no SF stories are about the deep space adventures of an automated space probe, they are mostly about astronauts (with or without the Right Stuff) traveling to other planets and doing things. This got started in the early 1940's, since back in that innocent age ...
