I absolutely love a pile-up activity and over the years on Tes Maths we have seen some great ones. Pile-ups are great because they look different to a sheet of practice questions, and thus students are perhaps more likely to engage and put the required effort in to solve the, and yet to solve them ...

What would happen if you made cutting strikes with a rapier? The results of a rapier cut would be dependent upon many factors: the mass and the edge configuration of the blade (a factor of its cross-sectional shape and thickness), the angle of the cut, the force behind the blow, the portion of the weapon that impacted (closer to or farther from the point), and the location of the strike on a ...

The general aim of the proposal Tangram piloted in Slovakia was to make the teacher trainees think of the importance that problem activities of measuring can bring into the mathematics formation of the pupils. We used the game of Tangram in seminars for the teacher trainees in their preparation for teaching static and metric geometry to pupils aged 11-14, that is, at lower secondary school.
