Do Fathers Matter?: What Science Is Telling Us About the ...

What Science Is Telling Us About the Parent We've Overlooked. Scientists also discovered that fathers are often preoccupied, almost "obsessed" with their child from the 8th month of pregnancy until birth, frequently experiencing "intrusive thoughts" about problems that could occur (131).

Do Fathers Matter? What Science Is Telling Us About the ...

What Science Is Telling Us About the Parent We've Overlooked. In recent years, researchers have begun to wonder what fathers contribute to their children. Fathers were clearly important for something, or they would disappear from their children's lives, as is the case with most of our animal relatives.

Do Fathers Matter? — Paul Raeburn

According to some research, fathers matter more than mothers in vocabulary development. One hypothesis is that mothers, who spend more time with their children, know their children's vocabularies, and tailor their own word choice accordingly; dads, who know their children less well, end up introducing new words.

'Do Fathers Matter?' Shows Why They Do - The New York Times

Paul Raeburn is author of Do Fathers Matter? What Science is Telling Us About the Parent We've Overlooked (Scientific American/Farrar, Straus and Giroux, 2014) and chief media critic at the Knight Science Journalism Tracker at MIT in New York, New York.

'Do Fathers Matter' Excerpt: Proving Dad's Worth (With ...

Category: Child Care, Fathers, Parents. As recently as a generation ago, in the 1970s, most psychologists and other "experts" thought that, besides bringing home a paycheck, fathers didn't matter much for their kids. There wasn't much evidence for the irrelevancy of fathers. But there wasn't a lot of data to suggest they were relevant, either.

Do Fathers Matter? Answers from the New Science of ...

"Do Fathers Matter?" is Raeburn's attempt to answer those questions. It's a clear-eyed march through the history of family studies and a helpful review of the new generation of research devoted to identifying the impact of dads. "The discovery of the father is one of the most important developments in the study of children and families," he writes.
