I wasn't going to put this section in, but I have to. I wanted to keep the website as free from handwavium as possible. However, while Faster-Than-Light travel is about as handwavium as you can get, it is unfortunately the sine qua non of interstellar space opera. Space opera with no StarDrive is like chocolate cake without the chocolate.

To break down the "math barrier" that has been shown to limit success in school, career and life, all children must learn their times tables.

### **Why all children must learn their times tables — and fun ...**

Linear programming, sometimes known as linear optimization, is the problem of maximizing or minimizing a linear function over a convex polyhedron specified by linear and non-negativity constraints. Simplistically, linear programming is the optimization of an outcome based on some set of constraints using a linear mathematical model. Linear programming is implemented in the Wolfram Language as ...

In my opinion, a much better choice is the language Lojban. The language has many advantages. The grammar is based on Boolean algebra (it is possible to use a subset of Lojban as a computer programming language).. The letters in Lojban each denote a single phoneme, instead of the multiple phonemes English uses.
