Look at your dream list, your to-do list, a relationship with another, a move or new house, a new trip, etc, then write as if that dream has already happened. You'll be more likely to make it happen once you get your headspace in the right place. I generally pick something I'm stalling on to be encouraged forward.

At times, dreams may occur during other stages of sleep. However, these dreams tend to be much less vivid or memorable. The length of a dream can vary; they may last for a few seconds, or approximately 20-30 minutes. People are more likely to remember the dream if they are awakened during the REM phase.
