### **Data Analysis And Decision Making**

By now, you'll know which information is most relevant, whether you're relying exclusively on analysis of the data or combining it with your intuitive know-how. If you're making your decision purely intuitively, you'll use what you perceive to be important and will rely on how the data is presented to pull out key points.

### **Data, Analysis and Decision Making - sccgov.org**

Now, being a data and analytics professional, I believe the best option is an elegantly designed dashboard that is used every day to make decisions. A fundamental part of making these business decisions is can the data be trusted? Again we can have a really elegant dashboard on untrustworthy data. It is meaningless and potentially dangerous.
