Fig. 12 - FADH₂. Conversely, when NAD⁺ is located in the active site, the phenol side chain of the aforementioned tyrosine residue is interposed between the nicotinamide ring and the flavin ring. In the active site of the enzyme's oxidized form is also present a redox-active disulphide bridge. It forms between two cysteine residues located in a highly conserved segment of the polypeptide ...

Open Access journals are the major source of knowledge for young and aspiring generations who are keen in pursuing a career in sciences. This system provides easy access to networks of scientific journals. Authors that contribute their scholarly works to Open Access journals gain remarkable reputation as the research scholars explore these works extensively.

Free Access to Scientific Journals - Open Access Journals

They say that an apple a day keeps the doctor away, but an apple may not be enough to battle the effects of the average daily diet. In the average American diet, several vitamins, minerals, and other nutrients, such as vitamin D, iron, and essential amino acids are either in short supply or are missing altogether.
