Preventive healthcare (alternatively preventive medicine, preventative healthcare/medicine, or prophylaxis) consists of measures taken for disease prevention, as opposed to disease treatment. Just as health comprises a variety of physical and mental states, so do disease and disability, which are affected by environmental factors, genetic predisposition, disease agents, and lifestyle choices.

Economic planning is a mechanism for the allocation of resources between and within organizations which is held in contrast to the market mechanism. As an allocation mechanism for socialism, economic planning replaces factor markets with a direct allocation of resources within a single or interconnected group of socially-owned organizations.. There are various forms of economic planning.
