Digestive System Coloring. Coloring activities can be helpful to give students a chance to model the organ systems. Though it is a low level activity, keep in mind, that students sometimes need a little bit of “downtime” to process the information they have learned during dissections or class lectures. I use coloring as quiet time,...

Image of the digestive system which has the major parts labeled. The same images is unlabeled in another worksheet for students to practice their knowledge of the organs. Answer Key - Label the Digestive System

Answer Key - Label the Digestive System

Digestive System Anatomy and Physiology Answer Key. The duodenum is the first part of the small intestine. The pancreas releases trypsin and the gall bladder releases bile into this part of the intestine to break down proteins and lipids, respectively. Since the duodenum is where a lot of chemical digestion occurs, it is considered the primary site.
