Defining The Problem Is Half

Einstein is quoted as having said that if he had one hour to save the world he would spend fifty-five minutes defining the problem and only five minutes finding the solution. This quote illustrates an important point: before jumping right into solving a problem, we should step back and invest time and effort to improve our understanding of it.

Defining Youth Outcomes - Afterschool Alliance

A problem statement is a concise description of an issue to be addressed or a condition to be improved upon. It identifies the gap between the current (problem) state and desired (goal) state of a process or product. Focusing on the facts, the problem statement should be designed to address the Five Ws. The first condition of solving a problem is understanding the problem, which can be done by ...

Understatement is a form of speech or disclosure which contains an expression of lesser strength than what would be expected. It is the opposite of an embellishment. The rhetorical form of understatement is litotes in which understatement is used for emphasis and irony. This is not to be confused with euphemism, where a polite phrase is used in place of a harsher or more offensive expression.
