Development economics is a branch of economics which deals with economic aspects of the development process in low income countries. Its focus is not only on methods of promoting economic development, economic growth and structural change but also on improving the potential for the mass of the population, for example, through health, education and workplace conditions, whether through public ...

The Differences between the North and South During the Industrial Revolution During the early 1800s, the United States changed in numerous ways in a little amount of time. The changes that occurred were a result of the industrial development and advancements that took place in the 19th century. Consequently, there were both many positive and negative effects that occurred as a result of ...

What is a minority group? Thomas & McDonell (1995) define a minority group as “a section of society whose identity is determined by cultural properties not shared by all members of the society and whose needs are not necessarily served when the needs of the society as a whole are being served” (p. 185). By definition, they add, “minority markets are too small to be self-sustaining for ...

3.2. Land tenure in Ethiopia. Our quantification is based on Ethiopia, an ideal benchmark economy for our purposes. It is a large country that is representative of the poorer economies of Sub-Saharan Africa. 14 With respect to measurement, customary law poses the difficulty of being informal as well as diverse across areas and ethnicities within the same country.
