Decimal Worksheets

The calculator also had to approximate the decimal since the decimal is recurring. If you expand the answer with your calculator, you will get 0.0000288600288 and so on. Look at how close this is to the answer in your book, in small units. If you round up the 10 thousandth place of the decimal, the answer would be like your book says, 0.00003.

How can I find the decimal answer for 1/34,560? | Yahoo ...

Solution Ignore the decimals for now and multiply as usual. 2626×9724 10504 5252 18382 23634 25535224 Now add the decimal point back into the answer: 2.626 has 3 digits to the right of the decimal point and 9.724 has 3 digits to the right of the decimal point .

Decimal Multiplication - Sample Math Practice Problems

We know that the real answer is going to be one point something, something, something. So what I want to do is keep dividing. I want to divide this thing completely and see what type of a decimal I actually get. And to do that, I essentially have to add a decimal here and then just keep bringing down decimal places to the right of the decimal.
