PCHS APES Summer Assignment 2018-2019

Tarzan (John Clayton II, Viscount Greystoke) is a fictional character, an archetypal feral child raised in the African jungle by the Mangani great apes; he later experiences civilization only to reject it and return to the wild as a heroic adventurer. Created by Edgar Rice Burroughs, Tarzan first appeared in the novel Tarzan of the Apes (magazine publication 1912, book publication 1914), and ...

Tarzan - Wikipedia

Spindle neurons, also called von Economo neurons (VENs), are a specific class of neurons that are characterized by a large spindle-shaped soma (or body), gradually tapering into a single apical axon (the ramification that transmits signals) in one direction, with only a single dendrite (the ramification that receives signals) facing opposite. Other neurons tend to have many dendrites, and the ...

a. Date ranges are from Du et al. (2018) except for Australopithecus prometheus: for Sterkfontein Member 2 and StW 573, we use Granger et al., 2015, and for Member 4 Pickering and Kramers (2010) minimum age of 2.01. We note, however, that the stratigraphic association of the flowstones used to date the upper limit of Member 4 is more complex than proposed in Pickering and Kramers (2010) and ...

Then, you apply some method for matrix dimensionality reduction such as Singular-Value Decomposition and voilà, each row of your matrix is a word vector. In case you are wondering what is a dimensionality reduction: when there's redundant data in a matrix you can generate a smaller one with almost the same information.

Molecular biology - ScienceDaily

Evolutionists often complain about "bad" designs in biology. The hypothesis is that evolution will often improvise and make bad, jerry-rigged designs because of physical limitations placed on the system by biology, physics or chemistry. In essence, evolutionists say that they can do better. The ...

Bad Designs in Nature? - Why the "Best" Examples Are Bad

Rarely does either species accept the mixed marriage, much less said hybrid, though. After all, What Measure Is a Non-Human? — and the hybrid's very existence is proof of a lack of Species Loyalty. Sometimes a particular type of hybrid becomes common enough that they can stop relying on their parent races to make new members and just mate with each other to sustain their own race.
