I'm studying differential equations (specifically Laplace Transforms) right now with my college assigned 'Differential Equations with Application and Historical Notes'-George F Simmons. While I like the text, I'm not a big fan of the fact that there are not many solved examples and a solution manual isn't available.

An Introduction to Differential Equations Differential Equations Solutions The Nature of Solutions Our intuition from calculus tells us that whatever we mean by "general solution", it will not be unique, because of constants of integration. Indeed, by general solution, we mean writing down every solution to a differential equation- for an equation
