### **Key to Insect Orders - knowyourinsects.org**

Making a Dichotomous Key A dichotomous key is a device that can be used to easily identify an unknown organism. The word dichotomous comes from two Greek words that together mean, "divided in two parts". A dichotomous key consists of a series of two part statements that describe characteristic of organisms. At each step of a

### **Making a Dichotomous Key - Lee County School District**

Best Answer: To start a dichotomous key, you have to look at the physical differences between the beetles. They all have 3 pairs of legs and 2 pairs of wings (a hard outer layered one and the inner is membranous), so you can't use that. However many of them have specially shaped antennae, or distinctively shaped appendages on their heads.
