Ocean Currents Answer Key. 1. ... and name at least one of each type of current. Answers will vary - Students should show an understanding that all currents move water horizontally, but surface currents are powered by wind and subsurface currents are powered by density. Subsurface currents account for the majority of ocean water (90% compared ...

### **Ocean Currents Answer Key - HelpTeaching.com**

Current is the amount of electricity flowing around a circuit. Current carries energy to the components of the circuit; that is why light bulbs you use at school light up. Large current makes bulbs bright, whereas a low current would make them dim.. Current is measured using ammeters. Diagram 1 shows an analogue ammeter, whereas diagram 2 shows a digital multimeter, which is used as an ammeter ...
