18 Responses to Not Designing for Most Common Screen Resolution. Don Moore Says: December 17th, 2008 at 8:24 am . The reference to the Webstyle Guide is outdated (2004). We are on the horizon of moving to the 1024 width, though our stats still show 17% of our audience is not there yet.

Not Designing for Most Common Screen Resolution

I agree with Jon that one should be careful to use the full screen resolution as a base when designing web apps. He is also right when he states that the wide screen variant of 768 is very common these days. I recently experienced, however, some very good reasons to decrease my own screen resolution policy.

Common screen resolution? - Stack Exchange

The next most popular screen resolutions were 480 x 320 (14%), 960 x 540 (6%), 480 x 854 (5%) and 320 x 240 (5%). Please note these statistics are from February 2012, which might be outdated today. Also, please always keep in mind that your app might be used under the inch sizes and resolutions not listed in this article.
