How it works... Apprenticeship combines on-the-job and classroom training, preparing the apprentice for a career as a skilled craftsman. Apprentices work during the day at training assignments with contractors (employers), who pay the apprentice directly for time worked.

Electrical Training Institute - Training for the ...

An apprenticeship is a system of training a new generation of practitioners of a trade or profession with on-the-job training and often some accompanying study (classroom work and reading). Apprenticeships can also enable practitioners to gain a license to practice in a regulated profession. Most of their training is done while working for an employer who helps the apprentices learn their ...
