Each Moment Is The Universe

A moment (momentum) was a medieval unit of time. The movement of a shadow on a sundial covered 40 moments in a solar hour. An hour in this case means one twelfth of the period between sunrise and sunset. The length of a solar hour depended on the length of the day, which in turn varied with the season, so the length of a moment in modern seconds was not fixed, but on average, a moment corresponds ...

The Universe is all of space and time and their contents, including planets, stars, galaxies, and all other forms of matter and energy. While the spatial size of the entire Universe is unknown, it is possible to measure the size of the observable universe, which is currently estimated to be 93 billion light years in diameter. In various multiverse hypotheses, a universe is one of many causally ...

This site is about seeing through the illusion of separation and waking up to the boundless wholeness that is all there is. Joan Tollifson has an affinity with Advaita, Zen Buddhism and radical nonduality but has her own unique and original expression. She points to the simplicity of what is, as it is -- the ever-present, ever-changing seamlessness of being.

Wrath and Sullenness (7-8) Like the fourth circle of hell, the fifth circle--presented in Inferno 7 and 8--contains two related groups of sinners. But whereas avarice and prodigality are two distinct sins based on the same principle (an immoderate attitude toward material wealth), wrath and sullenness are basically two forms of a single sin: anger that is expressed (wrath) and anger that is ...
