TPS Systems, Inc. - Network Solutions
Why the confusion arises in the Client ID topic here is . In the azure old portal they mention the "Client ID" as "Client ID " and when it comes to the new portal of azure they provide "Application ID" as well as "Object ID" ,so here the confusion starts generally many may copy the "Object ID" as "Client ID" ,but in the new portal we need to copy the "Application ID" as our "Client ID".

Creating the application Client ID and Client Secret from ...
Radia Client Automation software is an end-user device (PC and mobile device) lifecycle management tool for automating routine client-management tasks such as operating system deployments and upgrades, patch management, application software deployment, application use monitoring, security, compliance, and remote system management..
