Data Center and Cloud Solutions. Is your data center being tested by an explosion of traffic? Marvell understands how ever-increasing volumes of data, video streaming and high throughput for servers and storage solutions are testing bandwidth and data density speeds.

Data Center and Cloud Networking and Storage Solutions ...
A telecommunications network is a collection of terminal nodes in which links are connected so as to enable telecommunication between the terminals. The transmission links connect the nodes together. The nodes use circuit switching, message switching or packet switching to pass the signal through the correct links and nodes to reach the correct destination terminal.
