Computer Security Art and Science: Matt Bishop ...
Computer Security: Art and Science. Addison-Wesley published this book on December 2, 2002. They have a very nice web page for the book . [It has error: Chapter 29 has the Summary, Research Issues, Further Reading, and Exercises sections (the Table of Contents web page says it doesn't).

Computer Security: Art and Science
Matt Bishop is a professor in the Department of Computer Science at the University of California at Davis. A recognized expert in vulnerability analysis, secure systems/software design, network security, access control, authentication, and UNIX security, Bishop also works to improve computer security instruction.

Bishop, Computer Security: Art and Science | Pearson
Computer Security: Art and Science tries to meet these needs. Unfortunately, no single work can cover all aspects of computer security, so this book focuses on those parts that are, in the author's opinion, most fundamental and most pervasive. The mechanisms exemplify the applications of these principles. Organization

Computer Security Art and Science, Second Edition [Book]
The book is needlessly dense, and I say that because I have seen much more difficult subject matter presented in much more edifying ways. The author makes use of minimally useful examples to clarify his exhaustive lists of blandly defined topics. I never once finished a chapter and felt enlightened ...
